How to use this guide

This directory lists community resources available in El Paso County, Colorado. Resources are grouped by category. Within each category, the most readily-accessible resources are listed first.

What the symbols mean

Each resource shows a convenience rating — how quickly you can typically get help:

●●●●● **24/7 hotline**

Pick up the phone, get a human, anytime. Used for crisis lines and emergency services.

●●●●○ **Same-day, walk-in**

Daily hours, no appointment needed. Soup kitchens, emergency shelters, hospital ERs.

●●●○○ **Same-day phone**

Business hours, may direct you to a next step. Most clinics and information lines.

●●○○○ **Appointment-based**

Schedule needed, may be a wait. Counseling, dental, legal aid.

●○○○○ **Application required**

Eligibility check, paperwork, possible weeks of processing. LEAP, public housing, vocational rehabilitation.

Badges

Some resources are marked with badges:

- **24/7** — line is staffed around the clock.
- **Verify hours** — hours and contact information should be confirmed before visiting; small church-based pantries often change hours seasonally.

If you cannot reach a resource

Call 211. The United Way operates this 24-hour line that connects you to the right service for any need: food, shelter, utilities, mental health, eldercare. They can also confirm whether a smaller resource is currently operating.

Contents

256 resources across 21 categories.

About this document

Source

The information in this guide is adapted from the Helping Hands El Paso County Community Resources guide maintained by the Pikes Peak Library District at research.ppld.org/HelpingHands. Phone numbers, websites, and program descriptions are drawn from that source and from the agencies' own published materials.

Verification

Resources marked "Verify hours" have not had their hours of operation independently confirmed. Most are smaller church-based food pantries or community programs whose hours change seasonally. Always call ahead before visiting if no hours are listed or if a resource carries the Verify badge.

Convenience ratings

The convenience rating is a property of the type of service, not a quality judgment about the organization. A 24/7 hotline scores higher than an application-based program because help arrives faster, but both are valuable. The intent is to help residents in immediate need find immediate-response options first.

Accessibility

This document is structured for screen reader users and people who navigate by keyboard. Headings follow a logical hierarchy. Phone numbers are tagged as call links. Web addresses and email addresses are tagged as hyperlinks. Convenience ratings are conveyed in both visual symbols and plain text.

If you encounter an accessibility barrier in this document, contact 211.

Updates

This is a snapshot of community resources at the time of compilation. Information changes. The live source at the Pikes Peak Library District is updated regularly and is the most current reference.
